

# Cape Town to benefit from new self-storage facility

**CUSTOMER CONVENIENCE:** An assortment of packaging materials are on offer to make your storage concerns easier to deal with.

**StorAge spokesperson**

CITY Vault Self-Storage Facility, managed by StorAge, opened in April this year. This new multi-storey storage facility caters for the community's needs, with StorAge offering a range of services for domestic and business users, with unique unit sizes to cater for all your storage needs, varying from one to 10m<sup>2</sup>.

Domestic and business storage, records storage-lite and student storage are products that StorAge prides itself on offering to the public. In addition to these products, City Vault also boasts

high security mini-vaults, with fingerprint access, for secure storage of valuable personal possessions.

**Location**

Gavin Lucas, CEO of SA Self Storage Investments, the developers of the new facility, commented that the location of the new facility was a key attraction. With its position in the heart of greater Cape Town, the site offers unparalleled access from the N1, N2 and M5. Positioned on Voortrekker Road between the Koeberg interchange and Sunrise Circle, the three-storey facility is located

in a prime trading area, within close proximity to Howard Centre in Pinelands, the M5 Park, Rondebosch, Claremont and the CBD.

The StorAge multi-storey storage facility concept is based on international market trends of the USA, UK and Australia, where it is highly successful and a major asset to local communities. City Vault is not only safe and secure – renters will also appreciate the convenient location, free van transport service and high-security loading bay, as well as the fact that they are protected from the elements when packing and unpacking.

City Vault will serve the storage

needs of home-owners, renters and small businesses – providing increased flexibility, convenience and value to the community at a low cost.

City Vault will allow home users to free up living space, allowing greater benefits from the existing space in their homes. Short-term renting of space is a cost-effective alternative to performing costly renovations, or moving to a bigger home. Small businesses will be equipped with a useful management resource, since businesses can easily obtain more space as they grow without committing to expensive long-term leases.

The new facility provides a free transport service and the brand new records storage-lite product, which allows small to medium-sized businesses to store their records and documents off-site.

A variety of ancillary packaging materials, including, among other items boxes, bubble wrap and masking tape, are stocked on-site.

City Vault works on a "meet and beat" pricing strategy, offering easy payment terms with online payment facilities.
